

Dear Parents, Carers and Children,

We hope that you are doing ok as this lockdown continues – we miss you but we are following the government guidance and being at home is the right thing to do in the circumstances. We hope you are staying happy and safe.

Please find attached the home learning for this coming week. We have had some positive feedback and some lovely photos showing that you are learning so well at home. Please continue with these tasks that your teachers have carefully set. Remember that new home learning will be sent to you, and added to the website, each Sunday, ready for the week ahead.

Children in Years 1 to 3 are asked to complete the daily phonics session – details are on your home learning plan. This is very important so that they keep up with their letters and sounds learning to support their reading and writing.

We have included a Wellbeing Journal and Covid19 Time Capsule this week - you probably won't be able to print these off, but you can use some of the ideas in them for children to record their thoughts and feelings at this time.

These documents have also been uploaded to the class pages on the website: southwoldprimary.com

Please note: The Government has funded Oak National Academy - https://www.thenational.academy/ - to deliver 180 lessons a week, across a range of subjects, for all year groups from Reception to Year 10. It is of really high quality and we would thoroughly recommend having a look at it in order to supplement any home learning you are doing.

Also remember you can send us photos of your learning and play time to admin@southwold.nottingham.sch.uk We would love to see what you are up to. This is also the email address for any messages you might need to send us.

If there are any families that are having difficulty accessing the online materials and would prefer a paper pack, please let school know.

Sending very best wishes; for those of you celebrating Ramadan, we say, 'Ramadan Mubarak'.

Your Southwold Staff
